Dear Steve,

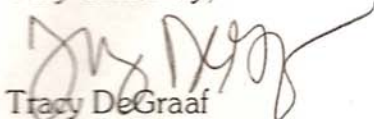

I am writing to thank Need A Hand Handyman Services for the excellent work that you completed on several projects in my home. While my husband is very handy, he is also very busy and rarely finds the time to get to all the items on the "Honey Do List."

The curtain rod in our living room was down for four years following the "Tarzan move" of our then rambunctious toddler. It's nice to have window coverings once again!

Your workmanship was superior and done in a timely manner and at an affordable price. Both my husband and I truly appreciated getting all those little projects done that we had put on the back burner for so long.

We will be sure to call Need A Hand the next time we "need a hand" around our home and we will happily refer you to our family, friends and business contacts.

Very Sincerely,

Tracy DeGraaf
